Education

SIES College Of Commerce And Economics

Bachelor of Information Technology(BScIT)

April 2023

CGPA 8.9

Experience

Softcon Business Solutions Pvt Ltd

April 2023 – Present

Software Engineer

Mumbai, India

- **Debugged and resolved critical bugs** reported in production and staging environments, reducing recurring issues and improving system stability across key modules.
- Investigated and **fixed client-raised support tickets**, working closely with QA and product teams to identify root causes and deliver timely fixes.
- **Designed and developed new features based on client requirements** and internal enhancement requests, contributing to improved usability and business value.
- **Built and deployed the Sumato Pro App** with the help of team, end-to-end, including frontend (Angular), backend APIs (C#), and database operations (MSSQL), following SDLC best practices.
- **Optimized SQL queries and asynchronous C# code**, reducing API response time and improving system performance during high-load operations.
- **Implemented logging and exception tracking mechanisms** to catch real-time issues and improve monitoring in production.

Projects

SMART BUSINESS SOLUTION (ERP SOFTWARE)

Angular, C#, Typescript, MS SQL, RxJs, Bootstrap

- Debugged and corrected code to **resolve system issues** and improve application stability
- **Designed and executed comprehensive test plans** for software releases, identifying and documenting over 150 critical bugs, leading to a 40% reduction in post-release incidents.
- Improved the functionality and performance of the company's core software application by identifying and resolving issues in the existing system..
- Enhanced system monitoring and **troubleshooting capabilities**, enabling data-driven optimizations for backend processing.

SUMATO PRO APP

AndroidStudio, Angular, C#, Bootstrap, CSS, SQL

- **Led a team of interns** in the coding phase of full software development lifecycle, from project design to implementation and testing.
- **Conducted code reviews**, provided mentorship, and facilitated knowledge sharing among interns.
- **Resolved 50+ critical bugs**, including memory leaks and performance bottlenecks, by implementing rigorous debugging protocols, contributing to a 40% improvement in application stability and user satisfaction.

CollabWithCode: Real-time coding platform

ReactJS, NodeJS, ExpressJS, Socket.io, Tailwind CSS

- **CollabWithCode** is a real-time collaborative coding platform which facilitates simultaneous coding by multiple users within a shared virtual environment..
- Implemented Socket.io to enhance server-client communication, enabling synchronized editing.
- **CodeMirror** for rich programming interface with features such as syntax highlighting, code folding, and
- automatic bracket closing.

Technical Skills

Languages: C#, Javascript, Typescript, SQL

Frameworks & Libraries: .Net Framework 4.6, Entity Framework, Angular, React, Nodejs

Databases: MsSql, PostgreSQL, MongoDB

Multithreading & Performance Optimization: C# Asynchronous Flow (Concurrent), Multithreaded C# (Parallelism)

Design Patterns & Architecture: Singleton, Event-driven Architecture
